ABOUT ME

I am a dedicated and pragmatic engineer with a strong work ethic and a hands-on approach to problem-solving. I strive for continuous improvement and maintain high standards for safety and efficiency. My experience on yachts has shaped my professional outlook, and I seek to join a team that shares my commitment to excellence. Passionate about adventure and an active lifestyle, I enjoy gravel cycling, bike packing, hiking, paddle boarding, and kite surfing. I'm currently planning a motorcycle trip through Europe in 2024. Additionally, I am a car enthusiast and enjoy exploring new activities.

WORK EXPERIENCE

May 2021- Now | 2nd Engineer

M/Y Stardust | 1161Gt 63m Amels

Since joining Stardust, I've had the privilege of working with an amazing crew, enhancing my skills, and traveling worldwide from Thailand to Australia, Norway, and the Med. During the COVID restrictions, we faced challenges with warranty work, collaborating closely with the Amels aftersales team. We successfully carried out the necessary repairs with their support, building a strong relationship with the team. Back at the Amels yard, we completed all warranty tasks and more within two years. Onboard Stardust, I've managed store parts, maintenance, and repairs while creating SOPs and updating the planned maintenance system. We've focused on power management, operating with CAT3512s, CAT C9 gen-sets, Quantum Stabilisers, Hi-fog, Hamman wastewater treatment, Jets vac system, De-wall and Van-Drill hydraulic systems, Alfa Laval fuel separators, and Heinen & Hopman HVAC systems. We also maintain a Nimbus C11 chase boat, three Sea-Doo Jet Skis, and a 6.2m Pasco rescue tender. Additionally, we installed Star Link maritime and RV systems, ensuring robust internet connectivity.

QUALIFICATIONS

- MCA SV 2nd Engineer 9000Kw 3000Gt
- MCA MEOL
- MCAAEC2
- MCAAEC1
- MCA PMFA
- MCA PSCRB
- RYA PBL 2

DANIEL GUILD

SV 2ND ENGINEER 9000KW 3000GT

WORK EXPERIENCE (CONTINUED)

Jan - Nov 2018 | Sole Engineer

M/Y Renewal 2 | 236Gt 35m Sunseeker

On a busy yacht with live-aboard owners, covering 5000nm per season, I maintained and repaired all engineering aspects, including daily upkeep and detailed record-keeping. Conducted safety tests and drills (mini-ISM) regularly. Worked with twin MTU 2000 engines, Kohler gensets, and an Alfa Laval fuel purifier. I left Renewal 2 due to discomfort with managing the upcoming 5-year survey and extensive shipyard period.

Oct - Nov 30th 2017 | 2nd Engineer (Delivery Crew Palma - Antigua)

S/Y Twilight | 199Gt 38m Oyster

Assisting the Chief Engineer with jobs around the vessel as well as watch keeping on an Atlantic crossing, cleaning of sea strainers, filter replacement, servicing deck fittings, servicing air handlers, installing new a freezer, tender repairs.

May 2017 – Oct 2017 | Deckhand/Engineer

M/Y Lola D | 170Gt 32m CodeCasa

Assisting the Engineer with day-to-day tasks and daily checks. Servicing twin MTU V16, Kohler generators, servicing and use of water maker, cleaning sea strainers, bunkering, servicing of alfa Laval, replacing anodes, servicing of tenders.

March 2014 – Nov 2015 | Flotilla engineer

Sailing Holidays Ltd | Various Sailing Vessels

Maintained and repaired mechanical systems, 12V electrics, and plumbing for twelve 30-50ft sailing yachts. Second year: Provided engineer support and trained less experienced crew. Offered quick breakdown response using a 150 hp twin screw RIB.

2010-2014 | Self Employed Arborist Contractor

While being self-employed I also studied two days a week at a local collage and contracted in for several well-respected local tree surgeons and local authorities

Apr 2008 – Sep 2010 | Apprentice Mechanic

Robinsons Volkswagen Garage

Gained transferable skills in an automotive garage, using diagnostic equipment for fault finding, servicing, and identifying warranty work on top-of-the-line VW cars and vans.
